

Test for Xamarin Developer Position

Create a small app for iPhone (Xamarin) which will contain two input fields (login and password) and submit button.

On Submit call login function from our web service <http://isapi.mekashron.com/icu-tech/ICUTech.dll>

If login successful, display green success message and entity details. In case of an error display red error message.

You can create a test account at <http://isapi.mekashron.com/icu-tech/ICUTech.dll> RegisterNewCustomer function.

Result and/or questions should be posted here:
